

Kristina Marie

Cloud & DevOps Security Engineer with 4+ years securing enterprise AWS and GCP environments at scale. Experienced in IAM architecture, CI/CD pipeline security, and CSPM across regulated financial data infrastructure. Seeking to bring that depth to a lead security engineering role.

EXPERIENCE

Cloud & DevOps Security Engineer — [Enterprise Redacted] | [City Redacted]

March 2022 - Present

- Design and maintain self-service AWS IAM tooling enabling enterprise teams to provision and govern cloud identities at scale, enforcing least-privilege access by default
- Serve as cloud security subject matter expert and primary escalation point for pipeline and security issues, supporting AWS IAM architecture reviews and security guardrail adoption across the organization
- Author and maintain Wiz CSPM, IaC, and secret detection policies across AWS and GCP, including custom Rego policies enforcing resource tagging compliance across GCP compute and container resources
- Build and maintain reusable Harness CI/CD pipeline templates with embedded SBOM generation, Wiz IaC scanning, and secrets detection, shifting security left across development teams
- Track enterprise-wide pipeline compliance across hundreds of teams via a centralized dashboard, surfacing non-compliant implementations and driving remediation
- Author CAB documentation for security control implementations, ensuring compliance with enterprise requirements in a regulated financial data environment

Security Engineer (Network Security / Data Science) — [Enterprise Redacted] | [City Redacted]

October 2020 - September 2021

- Automated large-scale data transfer workflows using AWS Lambda and EventBridge to move datasets into DynamoDB across multiple use cases
- Built a computer vision feature using OpenCV and Python to track eye movement and pupil dilation across directional stimuli
- Managed infrastructure development and lifecycle support across production and test environments

PROJECTS

MCP – my-checkov-policies (Personal Project)

<https://github.com/xtinamarie/my-checkov-policies>

My custom Checkov policy library extending open-source IaC security scanning with organization-specific rules, enabling policy-as-code enforcement without modifying the upstream repository.

Cloud Security Portfolio (Personal Project)

<https://www.kristinamarie.me/>

My cyber-security focused cloud portfolio built with AWS, Terraform, and GitHub Actions, showcasing secure infrastructure design and automation practices.

CERTIFICATIONS

AWS Solutions Architect Associate (AWS SAA-C03)

In Progress

SKILLS

Cloud & Security Tools:

Wiz (CSPM, IaC, Secret Detection),
Harness CI/CD, AWS IAM, Checkov,
SBOM tooling

Cloud Platforms:

Amazon Web Services, Google
Cloud Platform

Programming Languages:

Python, JavaScript, HTML5, CSS,
Rego (OPA)

Practices:

DevSecOps, CI/CD pipeline
security, policy-as-code, IaC
Security, CAB change
management

Interpersonal Skills:

Problem-solver, empathetic,
collaborative, organized,
communicative

EDUCATION

CUNY - John Jay College of Criminal Justice

New York, NY

B.S. in Computer Science and
Information Security

Aug 2015 - May 2019
